WOLFE COUNTY.

Campton Cacerney.

J. G. Taulbee, of Vortex, this county, was in town Sunday.

J. C. Lykins returned yesterday from a business trip to Lexington.

The infant child of C. H. Stamper, died on the 15th inst., of whooping cough and other complications.

Deputy U. S. Marshal W. A. Byrd, of Jackson, was in town Saturday and Sunday, and returned to Jackson Monday.

J. N. Vaughn has been confined to his room for about 10 days with something like lagrippe. He is thought to be improving.

J. H. Hurst, jr., son of Z. T. Hurst, is now at Valley View, on the Kentucky river, looking after the interests of his father in the lumber business.

James C. Swango, of Maytown, was in town Sunday attending the funeral services of C. M. Hanks, jr., conducted by the Masonic order, of which he was a member.

During the last few days marriage licenses have been issued to the following couples: Andrew Birchfield and Jarilda Jane Brewer, John C. Gullet and Martha Harmon, Wm. M. Burnett and Letha Mann, Thomas Williams and Alice Byrd, Robert Elkins and Maggie E. Day.

C. T. Byrd, of Breathitt county, has recently moved to town. He is occupying the W. A. Byrd property on East Main street. We gladly welcome him among us. Charlie, as he is familiarly known, is studying for the legal profession. He has the tact and ability to make a successful lawyer.

On Saturday all propositions for changes in the boundary lines of school districts of the county were being considered by the county superintendent, all the trustees of the county having been notified for that purpose, but, as we learn, no important changes were made except to abolish the Rocky branch district and annex parts of it to the Calaboose district, part to the Trace Fork district, and part to Hiram's branch district.

C. M. Hanks, jr., who was to the insane asylum at Lexington a few weeks ago for treatment, died at that place on the 22nd. His friends here having had previous notice that he had worsened, or that there was an imminent danger of immediate action. In fact, at noon on the day before he died, he was as usual. J. C. Lykins, who was supposed to be in Lexington the day after his death, and of same, wired his friends of the sad event, and his remains with him to Saturday evening, where they met by the friends of the deceased who brought his remains to Saturday night. He was buried Sunday by the Masonic order.

B. F. McGuire and J. T. Powers,
of Omer, Morgan county, were in
town a few days ago on business.

Wm. Brewer, of Breathitt county,
was taken through here Saturday
enroute to the insane asylum at
Lexington. Patrick has rented and
moved to R. G. Rose's farm above
town, and Alexander Caldwell has
moved from same farm to town.

There is a great deal of sickness
in this vicinity. Mrs. Iuba Couch,
Patience Couch and Suvilla Shack-
elford are very ill.

Great preparations for the com-
ing crops are going on in this sec-
tion. The prospect for the plant-
ing of large crops is quite encour-
aging, which seems to signify that
the people are expecting a railroad.

Rev. Parsons, of Meadow branch,
this county, passed through this
section on the 22nd inst. enroute
to Bear creek, in Lee county, to
preach on the 24th inst. He is an
earnest, consecrated Christian, an
impressive, eloquent talker, and a
great revivalist.

Water Oliver came near being
drowned in the Kentucky river, a
short time since. He started to
take a boat across and it became
unmanageable in the swift current.
Mr. Oliver became frightened and
leaped into the water. He suc-
ceeded in reaching the shore after
a desperate struggle with the waves.

We are glad to note that Miles

is able to sit up once more.

Your correspondent visited May-

Permit me to express my satis-
faction with THE HAZEL GREEN
HERALD. I have taken many of
the leading newspapers of the United
States during my life, and can
say willingly, without hesitation,
that THE HAZEL is the best all
round newspaper I ever read. I
find that we can't keep house very
well without it. I have been a
subscriber since '95, and expect to
remain so as long as it is printed
and edited by Spencer Cooper.

J. F. Lockhart and G. W. Good
have just returned from the horse
sale at Lexington. Mr. Lockhart
bought two, which are said to be
the finest blood now in the moun-
tains.

Our sheriff is covering the
trees, fences and doors with no-
tices of "sales for taxes," and al-
though it now appears that some of our
people are sure to get their tax re-
ceipts, and that right soon.

Spencer Fannin, a very inge-
nuous young man, is working with
"the little jeweler," and it is said
that he is making rapid progress
and will soon be able to "take
all the good jewels out of a watch
and put in cheap ones."

It seems to me that some of the
citizens of this county, who have
the "staff," should lend a helping
hand to the Wolfe county effort
for a railroad, for while we would
not be benefited as much by this
route as we would be by the More-
head route, still all will admit
that it would be better to have this
than none; and I am satisfied if
we can get this it would be the
cause of other roads being con-
structed through Morgan. Con-
sider the matter and help to get
the road.

EXPLANATORY.

Letter from Elder J. A. Howard to His
Many Friends.

To all the friends and brethren
who have subscribed for THE HAZEL
GREEN HERALD through my
solicitation this letter is addressed:
You may think a little strange
because my sermons have not ap-
peared in THE HERALD. The reason
is that other arrangements have
been impending which will
prove satisfactory to all parties in-
terested. This I wish to say to
you, that THE HERALD is not to
blame for not publishing my ser-
mons. And to all those children
of God who have trusted on the
Bible, I desire to say that I will
visit all the churches just as soon
as possible, and don't be in the
least discouraged. All things work
together for good to those who do
good, and those who do good, fol-
low the blessed Savior's teaching
day by day, and are found continu-
ally upon that road that leads to
heaven and to God.

Hoping this letter will explain the
cause above named until the
better arrangements are made,
which will no doubt prove satis-
factory to you all.

I am, yours truly,
J. A. HOWARD.

The Victims of Cerebro Spinal Meningitis in Floyd County.

Dr. B. W. Smock, who was sent to Floyd county by the state board of health to investigate the deadly malady in that section, has returned and was in Bowling Green last week to make his report to the secretary of the board. As is known, he found the disease to be cerebro-spinal meningitis. It was all confined to an area of about four miles between Beaver creek and Bull creek in the extreme southeastern part of the county. There have been 20 cases and 20 deaths. Some of the unfortunates died without medical attention, but Drs. Campbell, Gray, Wrightman and Pinson, of Pikeville, and Stallard, of Lanesville, rendered all the assistance possible. Those attacked by the disease died very quickly, one man being dead in two hours after the first symptoms appeared. They all died in convulsions, and the efforts of the physicians could not allay their terrible suffering.

An epidemic of measles has also prevailed in Floyd county and a number of deaths caused by this disease were attributed to meningitis. There were two hundred cases of measles, but in a mild form, and the fatality has not been great. Some of those in the Bull creek vicinity who had the measles on convalescing were stricken with the dreaded spotted fever and died in a few hours.

A better feeling now prevails in the stricken district, for the meningitis is subsiding, and it is not thought likely that the disease will spread. Dr. Smock found the people very poor, living in houses in the worst sort of sanitary condition, and in a low flat country between two creeks, in just such a place as the spotted fever always selects for its ravages. There was some difficulty in securing burial for the victims, as those who had escaped the disease were afraid to go near it.

Don't Stop Tobacco.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing comfort, health and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to a tobacco addict, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his practice since 1872 without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking Baco-Curo—it will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes, or refund the money with 10 per cent. interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day when you took your first chew of smoke. Sold by all druggists, with our iron-clad guarantee, at \$1.00 per box, three boxes (30 day's treatment) \$2.50, or sent direct upon receipt of price. Send six 2-cent stamps for sample box, booklet and proofs free. Buralak Chemical & Manufacturing Company, manufacturing chemists, La Crosse, Wisconsin.

Going Back to Return.

L. Matt McDonald, a tobacco planter who lived in Bourbon county, near the Clark line, went to Danville several days ago to sell his crop of tobacco, promising to return in a few days. His wife had received a letter informing her that he was on the point of starting west, and would never return. He leaves a wife and two children at home.

Being interested in the construction of railroads, and not having the address of any of the gentlemen comprising the committee recently appointed to correspond relating to the proposed railway through Volke county to a junction with the Lexington & Eastern railway, I write you respectfully asking you give me the names and postoffice address of some of the capitalists who own the coal fields and who are interested in the construction of the road named. Also please give me the address of T. C. Lytle.

I enclose my card, and would be glad to correspond with the capitalists who are expected to build the road or to aid materially in doing so. My experience in the location of railroads, both in the state of New York and in the western states, is such that I can render valuable service to a company planning in charge of their engineering corps.

Very respectfully,
WM. ROCK.

THE HERALD.

FOR RAILROAD COMMISSIONERS.
We are authorized to announce J. W. Wood, of Montgomery county, as a candidate for the office of Railroad Commissioner in this, the Third district, subject to the action of the Republican party.

Miss Ida Rose has recovered sufficiently to be able to return to her home.

A. F. Byrd and Sewell Combs were from Campton the first of the week.

Miss Lucy Neal returned Sunday from West Liberty, where she has been visiting relatives for several days.

Aunt Caroline Swango, who has been visiting her daughter, Mrs. Rose Pieratt, at Ezell, returned Monday.

Miss Mattie A. Quicksall was a pleasant visitor to this office one day this week arranging for some job work.

To purify, vitalize and enrich the blood, and give nerve, bodily and digestive strength, take Hood's Sarsaparilla.

Wm. H. Pence, of Holly, was visiting his uncle and aunt, Mr. and Mrs. J. F. Wood, of this place from Friday until Sunday.

Married, at the residence of the bride's father, Nelson Chaney, on the 22d inst., Frank Cecil and Miss Martha Chaney, W. B. Elkins officiating.

Our spring poet was rather previous three weeks ago, though farm work is on in earnest now, and "gee, haw, git up, thar," can be heard on all sides.

Mrs. Jeffie Rose and John Rose, of Lacy creek, whose illness has heretofore been mentioned, are convalescing, and hope soon to be able to attend to their duties again.

Mrs. F. N. Day desires to inform the public that she will sell her entire stock of millinery, fancy goods, etc., at cost and carriage in order to make room for her new spring stock. Ladies, now is your time to secure bargains.

If parties who have been ordering jewelry, etc., from mail firms such as Montgomery, Ward & Co. and others, will send me their orders I will discount their prices 10 per cent, and give you a guarantee, which you do not get from them.

Johns' Drug Store, Lexington, is the place to go if you wish to save money on patent medicines and drugs. Read his list of prices published in this issue, and when you go to Lexington give him a call, or send him a mail order for what you want.

F. H. Cook, an expert piano and organ tuner, has been engaged in tuning instruments here this week and will be in Campton next week. His work here has been entirely satisfactory, and our Campton friends will find that he is thoroughly acquainted with his business.

Dr. John A. Taulbee reports the following additional cases under his treatment: A daughter of F. Robinson, John Davis, Stella and Mollie Haney, Minnie Maple, Dora Swango, Dave Rose, Mrs. J. F. Woods, Mrs. James Clark, Jonas Sallee, J. D. Graham, Irvine Carson, Arley Cecil and Alvin Oldfield.

Elza James left last Monday for Fair Grange, Ill., on a prospecting tour, and to visit his army of relatives in that section. He is a model young man, possessing all the characteristics which are essential to the make-up of a true gentleman. We predict success for him wherever he may go. Tears dimmed the eyes of more than one when he bade adieu to his numerous friends here.

League Meeting.

A large and earnest crowd of Christian workers assembled at the residence of Mr. Quicksall Tuesday evening last to engage in League work. The subject on this occasion was "The Sin Offering," the discussion of which was participated in by many of the members, but it was by no means exhausted and will be taken up again at some future meeting. One of the members of the League from the academy home sent in an exegesis, which was read, evidencing the fact that his heart was with them if he could not be present. Renewed interest is manifested at each service, and age and youth are working hand in hand together in furtherance of the grand and laudable work undertaken by this society. A "praise meeting" will engage the attention of the League next Tuesday evening at the residence of Mrs. Ellen Swango.

Handsome Presents.

Misses Laura Rawlings and Minnie Day were the recipients last week of some pens which are rather unique in design. Two of them measure 12 inches from point to end of holder, 1 1/2 inches across center of holder, and the point is 3/4 of an inch broad, while one was a very handsome gold pen with pearl handle. The two larger ones are such as are used by the cowboys of Texas, and the smaller one will doubtless be used to write dainty missives to the donors, who reside in Texas, and friends who have recently left for Illinois and elsewhere.

Change of Study Hours.

Beginning Monday, April 1, the work at school will commence at 7 o'clock a. m. and continue till 1 p. m. In the afternoon the special class for teachers will recite from 2 till 3, also the class in elementary psychology. Those not in the afternoon classes will study from 2 till 5 p. m., and will have from 5 till 8 p. m. for recreation. The study hours at night will be from 8 till 10. This manner of proceeding was adopted last year and it worked well, and now it will do as well as it did last year, and possibly better. Wm. H. Corn.

"Under Value Sale."

See the advertisement of "Great Under Value Sale" in this paper, and when you go to Lexington give Mr. Adler a call. Among the good things that he has to offer the people at a small price for the spot cash is the John B. Richardson stock of hats, which he bought at a sacrifice, and every gentleman who needs a hat should give him a call if he wishes to save money and buy the best.

Liver Troubles Cured.

"I had liver trouble for three years and got so I could not eat anything. I thought I would try Hood's Sarsaparilla and procured a bottle. Since taking it I have not suffered at all with indigestion and have gained in weight and I am very much better."—Mrs. Evan Sale, Beechland, Ky.

A Piano at a Nominal Price.

Chicago's largest music house, Lyon & Healy, has moved into a magnificent new building. They have a number of slightly used and second hand pianos returned from World's Fair, rentals, etc., etc., which they have determined to sacrifice rather than try to make room

for. These instruments comprise Square pianos at \$40, \$65, \$90, \$100 and \$125. Upright pianos at \$125, \$140, \$150, \$175, \$190, \$200, \$225, \$240 and upward. Grand pianos at \$260, \$280 and \$300 and upward. Nearly all originally sold for from two to four times their present price. Almost all prominent makes (in squares and uprights) are represented, including among numerous others, Chickering, Knabe, Steinway, Fischer, Weber, Ducker, Steck, etc. This is an opportunity that will not occur again, as Lyon & Healy have not moved for 20 years. Immediate attention is therefore necessary. A good piano would be to order a piano, leaving the selection to Lyon & Healy. However they will send a list and full particulars upon application. Any piano not proving satisfactory may be returned at their expense. Address at their new salesrooms, corner Wabash avenue and Adams street, Chicago. Distance is no obstacle in taking advantage of this remarkable chance to obtain a piano, for in proportion to the saving to be made the freight charges are insignificant. If you do not already know them by reputation, any banker will assure you of Lyon & Healy's entire responsibility and record of over a third of a century for honorable dealing. Write today so as to avoid disappointment.

Lost—Some two months ago, a Holland Fountain Pen. The finder will be suitably rewarded by leaving it at this office.

ELECTROPOISE.

IT CURES DISEASE.

The Electropoise gave me complete relief from excruciating pain in three applications. I also find it good for treating children for their numerous ailments. —C. T. Soden, with Bridgford & Co., Louisville, Ky.

Mr. G. W. Flint, of Skylight, Ky., says: "I suffered for years with my kidneys, inflammation of the bladder and enlargement of the prostate gland. After a short trial of the Electropoise I am entirely relieved, and feel twenty years younger."

"I have derived more benefit from the use of Electropoise than from all other remedies combined. I think it the grandest invention of the age. It cannot be priced too highly."—Mrs. M. E. Gorman, Sadesville, Ky.

John H. Davis, esq., of Barbourville, Ky.: "The Electropoise is the best all round doctor I know of. My wife suffered from the effects of la grippe for several years; also a complication of other ailments. Now she is entirely well. Indigestion bothered me a great deal—an now well. One of my neighbors is using it for lung trouble, and reports improvement."

As a curative agent the Electropoise cannot be equalled. Nearly 1,000 have been put out from this office in the last three months.

Shop-Worn Opinions.

Many of the candidates for state offices are chasing themselves over the country, making speeches and trying to whoop up things generally. Some of them are trying to inject into the state canvass national issues which have nothing whatever to do with the state government. Much of their time is devoted to a discussion of the silver question, and some of these speeches show very plainly that the speaker knows about as much about this subject as a tumbler does astronomy. What the people want in a state official is honesty and efficiency, and they do not care for his opinion on the silver question, nor would they blame him much if he had no opinion at all on the subject. Nine-tenths of these opinions are second-hand anyhow, and much shop-worn at that. Both the great political parties are badly divided on this question, but when election day rolls around the Republicans will vote their straight ticket to a man, while the Democrats can always be depended on to make some fool break when they should stick together.—Bullitt Pioneer.

THE PRACTICAL SCHOOL OF THE SOUTH.

[illegible][illegible]

REMARKABLE TRANSFERS OF LAND.

Many Colonies Being Established Out of the North and West.

John H. Inman, of New York, in a letter to the Manufacturers' Record of Baltimore, says: "As an indication of renewed activity in the southern country, I may report that I have sold 45,000 acres of coal land which I have owned for a long time on the Cumberland plateau, in the Chattanooga district, to New York parties for \$275,000. They will probably begin to develop the property before a great while."

The Southern States Magazine has recently had reports from a number of real estate agents in different parts of the south. These reports show that the southward movement of speculation is very great.

One firm at Atlanta has sold in ninety days an aggregate of 2,740 acres of farm property for \$80,700. The same firm has an order for a tract of 50,000 to 100,000 acres for colonies of Swedes, and similar orders from Nebraska, Pennsylvania and Ohio for smaller tracts for colonization. A Memphis firm has sold since September 1, 24,025 acres of farm lands in Mississippi and Louisiana for \$195,350, the purchasers of which are in part from Iowa, Nebraska, Dakota and Illinois, buying for immediate occupancy and cultivation. A Chattanooga agent reports having sold in the last twelve months thirty farms, aggregating 4,800 acres, to northerners. A company in western North Carolina reports the sale of a 5,000-acre tract and a number of farms. An agency in Lynchburg, Va., sold 9,187 acres of farms to northern farmers in 1894. An agent at Columbia, S. C., has sold several large farms since January 1, including one of 1,280 acres to a New Yorker. An agent at Cambridge, Md., settled in 1894 20 families of Germans from the west, and says that many others have come in and rented farms with the privilege of buying. In Haralson county, Ga., over 8,000 acres have been bought in small tracts for orchards and vineyards by over 200 persons from other states. At Centerville, Miss., 22 farms were sold to buyers from Illinois, Kansas and Pennsylvania.

A correspondent at Gillett, Ark., says that over 100 families settled in that county in 1894, and that a large number has come in since. A real estate agent at Pocomoke City, Md., writes: "I have never known the demand for farm lands in this section so great as at present. During the year just closed I sold about 50 farms."

An agent at Little Rock, Ark., says: "In the last six months 50 families have settled in one county in this state. They are principally home-seekers who have settled as farmers." Another letter says: "The stream of home-seekers from other states to this section has within the past year attained a magnitude not dreamed of before. Few yet realize the magnitude of the exodus from the northwest. Many families from the West are very poor—almost destitute of means—but others are coming very well provided with money, and many of our best farms are being bought for cash."

In a letter from Crowley, La., it is said: "Within the last three or four months our office has been crowded with home-seekers and settlers. The great business here has been rice growing, and for the last two or three years farmers have mostly been able to pay for their lands out of the first crop. We are beginning now to diversify our products. This parish will probably plant more oats this year than the whole state has for many years

before. A larger area will also be planted in corn than formerly. The growing of fruits, such as figs, plums, pears, peaches, etc., is also coming more and more into prominence. This is a magnificent section for all fruits of this sort. Cultivation of small fruits and vegetables is also extending rapidly."

A wealthy financial house in Memphis writes as follows: "The members of this firm came to the south in 1882 from Indiana, as a result of the interest which the Atlanta exposition caused. We are glad to find that men from the north are at last coming to realize the undoubted advantages which the south presents. The normal trend of immigration for many years should have been south, and we have no doubt that the natural advantages of the south would have it so but for slavery and feelings aroused by the war. Among southern men of our acquaintance there is but one feeling in regard to this immigration. It is welcomed with a strength which it would, perhaps, be difficult for the immigrants themselves to understand."

Is It the Law's Fault?

Under the law courts are required to instruct the jury on the law applicable to the case, and the instructions are required to be in writing. All questions of law arising during a trial are decided by the court, and today in Kentucky it is almost impossible to secure a conviction that will stick. Most of the trouble is caused by the written instructions that are given to a jury. The average jurymen could not explain an instruction in a murder case if he were required to do so to save his own life. Judges do not understand what the instructions contain, and reversals follow as a natural result. There has never been a murder case tried that would pass the court of appeals if technical errors were causes for reversals.

The law requiring written instructions should be repealed, and the federal statute adopted, that requires the judge to charge the jury on the law and evidence. This would require a higher grade of talent for our circuit judges, but it would be beneficial in the end. If the present law cannot be understood so that a second trial will end the case, it would be better to abolish the court or cancel the judge's commission.

The failure of juries to execute the law has produced the spirit of lawlessness and developed mob law in Kentucky. No one should be punished unless he is proven guilty, but when a most outrageous murder has been committed the inability of a circuit judge to try the case according to law should not be used to let the culprit escape the law's punishment.—Frankfort Argus.

"MILLIONS IN IT"

Alleged Silver Mine in Eastern Kentucky.

Fortunes At Hand If One-Half Claimed Is True.

IS IT HAILOR "SWIFT'S MINE"?

Special Correspondence Courier-Journal.
HAZEL GREEN, Ky., March 23.—Nurs has just reached here that John H. Cook and Tom Howard, of Magoffin county, have discovered what they believe to be a very rich vein of silver on the Mine Fork of Sandy river, near the boundary line of Morgan, Magoffin and Johnson counties. The locality is about 12 miles from Salyersville, in Magoffin county. The men who made the discovery were so impressed with their find that they took specimens of the ore and in person visited an assayer in Philadelphia, who pronounced the ore as rich as any ever discovered in the Black Hills during the Leadville boom in the '70s. These men also found a deserted camp, evidently used by miners years ago, judging from the crucibles and other things lying around in profusion. Among the discoveries in the camp were several dies which showed plainly that they had been used to mold coins in the early settlement of this mountainous section.

The men who made the discovery have tried assiduously to guard their secret, telling of their good fortune to only a few of their chosen friends, but their movements in going to and from the locality of the discovery, together with other suspicious circumstances in their movements aroused the curiosity of the countrymen in that section, and they "let the cat out of the bag." Though only the two men named know the exact place, several have seen the rich ore and Cook and Howard have exhibited so much of it that great excitement prevails in that locality at present.

Many people think the discovery is the abandoned "Swift's mine," of which so much has been written and told in tradition. If this be so, and the half that has been told of "Swift's mine" should prove true, Eastern Kentucky will soon spring into prominence as a rival of the great west in the production of silver, and is destined to down Colorado in furnishing raw material from which to make the "dollar of our daddies," for the silver which Swift is said to have used and carried away on pack mules years ago upon his annual visits to this section was so rich that much of the ore did not need smelting.

Thousands of dollars have been expended in trying to locate this famous Swift mine, and many who thought they had found a bonanza, and worked like beavers to develop it, later on made the discovery that it was but a hankle "busted." But in one thing they were all agreed, for all of them have selected Eastern Kentucky as the prospective field where this fabulous wealth was to be found, and prospecting in every mountain county has been indulged in at some time.

Here in Wolfe county Mrs. R. P. Fleming, a woman of culture, has spent 30 years of her life and a considerable sum of money prospecting for what the old sailor, Swift, is supposed to have been possessed. Though discouraged in her efforts and devoted for her devotion, she has systematically pursued the search, and she found any considerable quantity of silver ore has guarded the secret so well that the fact is not known. That she has found silver ore is true, for quantities from time to time have been on hand, for a few

years since picked up a small piece of rock near where she was operating by blasting, and at his home had an assay made. The test in this instance showed \$21 of pure silver and a very slight trace of gold to the ton of ore, and she would have had no difficulty in getting capital interested at that time but for the fact that the locality in which she was operating is remote from railroads and inaccessible by wagon or other vehicle, owing to the immense cliffs which surround the place. The excitement occasioned by the New Yorker's find never, therefore, amounted to much, and in time the occurrence passed out of mind.

On several occasions in the past few years the writer has had exhibited to him pieces of rock with more or less silver in them, and some of the specimens appeared nearly pure silver. But in no instance has the evidence of silver in this section been so convincing as the find of Cook and Howard.

The young man who gave the writer the information on which this letter is based is perfectly trustworthy, and he says he was offered an eighth interest in the mine for \$150 when it was first discovered, he being one of the chosen friends of the lucky couple, but now the price has gone so high that he "can not touch it with a ten-foot pole."

The proposed railroad from the mouth of Mill creek, on the Lexington and Eastern railway, thence through Campton and Hazel Green on to the celebrated Caney canal fields of Morgan county, would touch the newly discovered silver field en route to Prestonsburg, in Floyd county, and if the facts given the writer prove that silver has been discovered in the locality named, in anything like the quantity alleged, the road would be built on to Prestonsburg, and there connect with the Norfolk & Western, which has that place as its prospective terminus.

The Y. P. S. C. E.
EDITOR HERALD: Two weeks ago you promised, by your permission, to give some of the distinctive principles and features of the Y. P. S. C. E. First, we repeat its motto again, viz: "For Christ and the Church." The society has the prayer meeting pledge, which is honestly interpreted; the lookout, prayer meeting and social committees, and the consecration meeting with its roll-call. Other committees are optional, and the constitution is entirely flexible in other points according to local needs. The prayer meeting pledge, which is the pledge made by all active members, is as follows: "Trusting in the Lord Jesus Christ for strength, I promise Him that I will strive to do whatever he would like to have me do; that I will make it the rule of my life to pray and to read the Bible every day, and to support my own church in every way, especially by attending all her regular Sunday and mid-week services, unless prevented by some reason which I can conscientiously give to my Savior, and that, just so far as I know how, throughout my whole life, I will endeavor to lead a christian life. As an active member I promise to be true to all my duties, to be present and take some part, aside from singing, in every Christian Endeavor prayer meeting, unless hindered by some reason which I can conscientiously give to my Lord and Master. If obliged to be absent from the monthly consecration meeting of the society I will, if possible, send at least a verse of scripture to be read in response to my name at the roll-call." Now is it any wonder that all the churches have entered so heartily in the Endeavor work?

Is it any wonder that the church that desires to perpetuate its own existence as a sect shall withdraw from this great onward, forward movement, and start among its own a separate organization? If this work is entered heartily, will it not necessarily make young people loyal and efficient members of the church? And most assuredly it promotes the spirit of interdenominational church federation, and at the same time the spirit of loyalty to one's own church and denomination. All associate members take the following pledge: "As an associate member I promise to attend the prayer meetings of the society habitually, and declare my willingness to do what I may be called upon to do as an associate member to advance the interests of the society." Our next national convention will convene in Boston, Mass., July 10-14, of this year. We expect to go up to that grand meeting with 60,000 delegates, representing all the leading evangelical denominations. The H. G. A. Y. P. S. C. E. now numbers on its roll between 75 and 80 members, many of whom are active. Very truly,

Dyspepsia
Mrs. Judge Peck Tells How She Was Cured
Sufferers from Dyspepsia should read the following letter from Mrs. H. M. Peck, wife of Judge Peck, justice at Tracy, Cal., and a writer connected with the Associated Press.
"By a deep sense of gratitude for the great benefit I have received from the use of Hood's Sarsaparilla, I have been led to write the following statement for the benefit of sufferers who may be similarly afflicted. For 15 years I have been a great sufferer from dyspepsia and heart trouble.
Almost everything I ate would distress me; I tried different treatments and medicines, but failed to realize relief. Two years ago a friend prevailed upon me to try Hood's Sarsaparilla. The first bottle I obtained helped me, and I continued taking it. It did for me so much good that my friends spoke of the improvement. I have received such great benefit from it that I gladly recommend it.
I now have an excellent appetite and nothing I eat over distresses me; it also keeps up my strength. I cannot praise Hood's Sarsaparilla enough. Get Hood's Sarsaparilla. It has cured me of heart trouble and dyspepsia. It is a great blessing to the human race."
Hood's Sarsaparilla is sold by all druggists and is prepared in accordance with the directions of Dr. J. C. Hood.
